ENVIRONMENTAL STEWARDSHIP: Pope Francis suggests that once we start to think about the kind of world we are leaving to future generations, we look at things differently. We realize the world is a gift which we have freely received and must share with others. “We can’t view the world in a purely utilitarian way—geared only to our individual benefit. Intergenerational solidarity is not optional, but rather than basic question of justice. The world we have received also belongs to those who will follow us.”
